GOOD PROCEDURES AND FAVOURING FACTORS IN THERAPEUTIC RIDING

*XIVth International Congress of
Therapeutic Riding
April 24-27, 2012
Athens, Greece.*

ORGANIZATIONAL ANALYSIS

*Organizational analysis is a recursive and participative
management process*

of

- REFLEXION
- Projecting
- Intervention
- Evaluation

aimed at IMPROVING the QUALITY

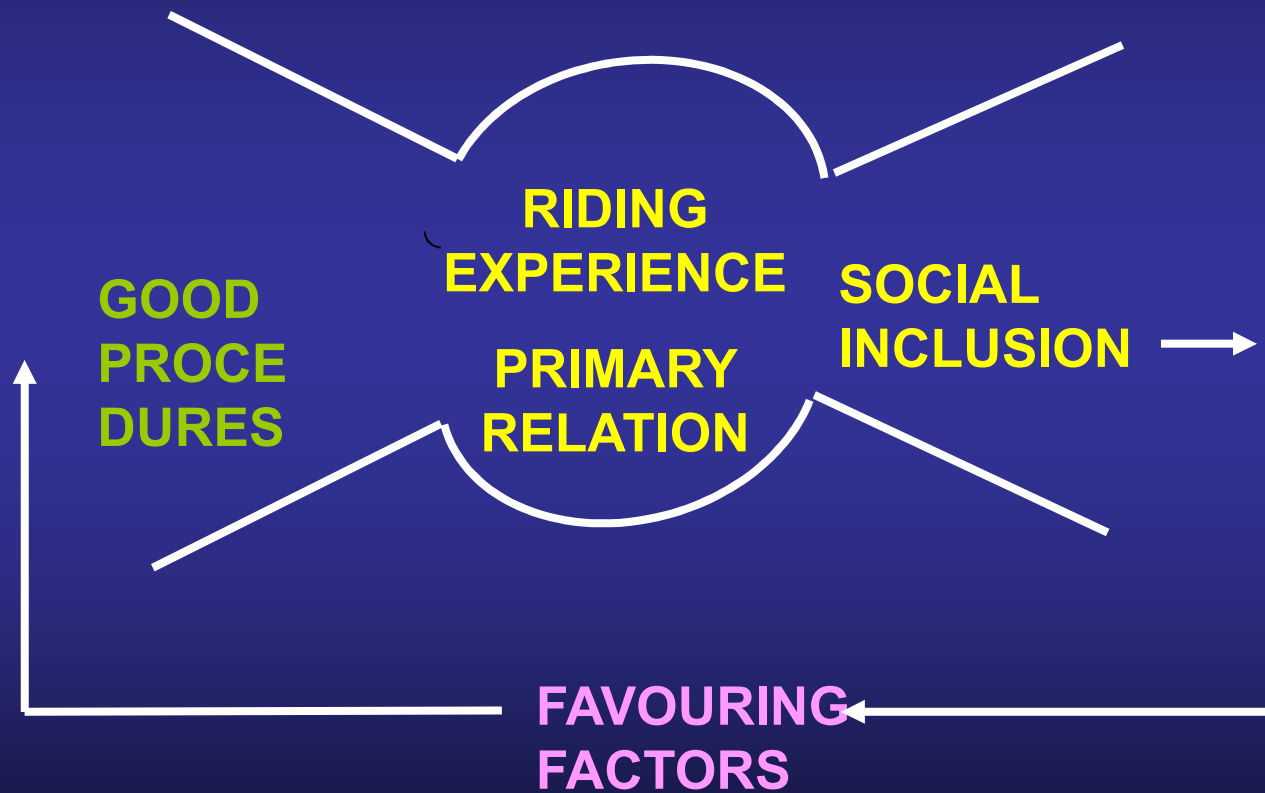

GOOD PROCEDURES

A number of action/relation modalities deliberately carried out by the persons involved in order to produce a progressive improvement of the intrinsic Quality of the intervention, in favour of **all** the people involved

FAVOURING FACTORS

A number of conditions which do not depend directly on the action of the subjects involved in the intervention, but which can refer to superordinate institutional organizations, to elements belonging to the (economical, social, cultural, historical, geographic) context or to the fortunate case
